REVI Classic

After more than 55 years of experience in the field of manufacturing plastic products, the company REVI developed a unique system of joining polymer pipes. The patented securing mechanism Incorporated into each "REVI Classic" PPSU fitting and pressure sleeve, provides a matchless level of safety.

Nach über 55 Jahren Erfahrung auf dem Gebiet der Herstellung von Produkten aus Kunststoff hat das Unternehmen REVI ein einzigartiges System zum Verbinden von Polymer-Rohren entwickelt. Der patentierte Sicherungsmechanismus, integriert in jedes "REVI Classic" Fitting aus PPSU und Schiebehülse, bietet ein beispielloses Sicherheitsniveau.

Po več kot 55 letih izkušenj na področju izdelave plastičnih proizvodov je podjetje REVI razvilo edinstven sistem spajanja polimernih cevi. Patentiran varovalni mehanizem, vgrajen v vsak fitting iz PPSU in potisni obroč "REVI Classic", nudi zaščito brez primere.
